TIPPING THE SCALES:

Using a Cross Disciplinary Approach to Solve Global Challenges

The rise of globalization, rapid dissemination of information and increased interconnectivity has drastically changed the dynamic of everyday existence. What challenges will we face in this new world as a result of the ever-growing rise and distribution of technology and increased spread of culture and ideas? Under the broad theme of “Tipping the Scales: Using Cross Disciplinary Answers to Solve Global Challenges” a **Call for Papers** to the 2013 Dr. Gregory P. Domin Graduate Research Conference at Columbus State University is issued—**proposals need not address the selected theme**. Graduate students from all disciplines are encouraged to submit their research for discussion and review.

The deadline for submissions is September 20, 2013; acceptances will be offered on a rolling basis with organized panels no later than October 4, 2013.

Submit your proposals at <http://gradschool.columbusstate.edu/gradconference/>

October 23-24, 2013
